BASEBALL EXPERIENCE

Minor League Technology Apprentice, Houston Astros	February 2026 - Present
• Wrote scouting reports on opposing pitchers and went over them with hitters in the dugout before and after at-bats • Built R/Shiny and Python apps connected to our internal SQL database and the MLB Stats API, including a hitting app that turns TrackMan and Hawk-Eye data into daily reports for hitting staff and a baserunner route efficiency tool • Took over hitter scheduling, programming, and early work after the hitting coach left midseason • Created hitter reports and goals for front office staff to aid the player development process • Became a uniformed coach during extended spring training; coached 1st base for away games • Developed and ran catcher early work all season, covered infielders and outfielders when needed • Cut video of draft prospects for the amateur scouting department ahead of the 2026 draft • Set up, broke down, and uploaded all video for the FCL Astros and rehab group; captured data across Hawk-Eye, TrackMan, Edgertronic, and Blast	
Assistant Baseball Coach, Eastern University	July 2025 - January 2026
• Developed practice plans for outfielders, hitters, and baserunners • Academic advisor for 8 student athletes	
Assistant Baseball Coach, Flag City Sluggers	Summer 2025
• Responsible for the hitters, infielders, and outfielders • Threw batting practice, hit fungos, and led drill series for pre-game and practice • Worked directly with the head coach to schedule trips, design practice plans, and write lineups • Worked with Rylan Mills, 18th-round pick of the Milwaukee Brewers in the 2025 MLB draft
